

STRONGFIELD GROUP

QUALITY POLICY

The Strongfield Group of Companies specialise in the supply of high reliability Engineering systems, components, products, materials, service & specialist consultants to the defence, aviation/aerospace, automotive, marine and advanced engineering industries. The nature of the company's activities places particular emphasis on experience, expertise, performance, reliability & quality. The objective of the Company is to supply on time products and services of a quality standard whose function, appearance and price will satisfy the requirements of our Customers as well as meeting any Statutory and Regulatory requirements. These Objectives shall be reviewed and analysed at Management Reviews. The Company recognises that to achieve that objective it is essential to have planned effective working systems, which are briefly described in the Quality Manual and Quality Procedures that meets the criteria of ISO 9001:2015. In recognition and acceptance of the requirements of ISO 9001:2015 and those of our Customers, the policies determined and described in the Quality Manual and Quality Procedures have the full support of the Board of Directors and are mandatory.

We are committed to continuous improvement throughout our field of operation and to further the effectiveness of our Quality Management System. The reputation of the Company rests on the high quality of its products and it is the responsibility of Company Management to administer these policies and the responsibility of all employees to be aware of the importance of their work and to safely carry out the procedures and practices referred to in the Quality Manual and Procedures. We aim for defect prevention rather than detection. We are committed to doing everything '**Right First Time**' for both the benefit of our customers and ourselves.

Signed:

V. Mongia

Managing Director
